

11-13th OCTOBER
2022 ANTALYA

ISCC'22

INTERNATIONAL SYMPOSIUM
ON CONTAMINATION CONTROL

**The Cleanroom
Industry is Looking for
50 Young Professionals**

**CLEANROOM
TECHNOLOGIES
SOCIETY OF TURKEY**

Who is “Young Professional”?

Apart from being young as an age, young professionals are all new CONTAMINATION CONTROL industry members seeking an area to grow, learn and give back to their community. Not limited to knowledge, we are looking for the new generation of our ICCCS committees, active members from our societies, and enthusiasts looking to be active but don't know where to start.

Why are we searching 50 Young Professionals?

As part of ISCC2022, with the “50 Young Professionals” project, newly involved sector professionals from every age group will have the chance to attend the ISCC2022 events as well as the ICCCS Accredited Course and trainings created for them. These sector professionals which will be informed about the ICCCS procedures and committees, are aimed to be candidates for the critical positions in the ICCCS organization.

What's ICCCS?

The International Confederation of Contamination Control Societies is an international community for national society on cleanrooms and contamination control. From each country only one society can be a member and represent their country. At the moment there are 19 members. One member R3 Nordic even represents 4 countries (Denmark, Norway, Sweden and Finland).

ICCCS members organise an international symposium every 2 two years in the even years.

ICCCS stimulates the development and exchange of cleanroom technology and contamination control courses and provides international accreditation to courses of members that fulfil the IEC guidelines. ICCCS has an liaison with the TC209, the Technical Committee of cleanroom standard International meetings of ICCCS, IEC and TC209 are aligned yearly.

Why is ISCC'22 is so significant?

Every two years a member society of the ICCCS organizes the International Symposium on Contamination Control and Cleanroom Technology.

The 25th edition of the ISCC Contamination Control Symposium will be held in Antalya by Cleanroom Technologies Society of Turkey. This year is also special because we are going to celebrate 50th foundation anniversary. Most of the sector professionals from all around the world will come together for sharing own experiences.
